

The I.A.M Co States of Being

By: Duane Miller 2/23/09

Be “CLEAR”

The I.A.M. Co Office is a peaceful real estate appraisal office that runs smoothly and prospers month after month, year after year. Everyone who passes thru our doors feels welcome here and they feel cared for and they trust us. The employees and appraisers LOVE working here and wisdom flows easily and effortlessly from God thru each of the staff and into whatever task we are working on at the time. Collectively we are synergistic and we master mind very well together. We call upon each other for support only when necessary and we are always open and surrendering to source wisdom to flow thru us and the results are nothing short of amazing. Our work is 100% in integrity, 100% of the time. Our business is always expanding and our demand is tremendous. We are the most respected name in the appraisal industry and in our community and in our hometown we are loved and adored and our fellow appraisers know that they can call upon us for support. Each of the appraisers and staff live balanced and prosperous lives and money flows easily and effortlessly to all of us. There are never feelings of lack and abundance touches every aspect of our lives. Employees and appraisers are 100% loyal and would never consider looking anywhere else to work. We are always growing in business and in personal growth and everyday is better than the one before. We are grateful to God for all that is and we operate from a basis of service to mankind bringing fourth goodness into all that we do. God is present in all that we do and the light shines as we “be the change” in this world. **Be CLEAR!!**

Be “OPEN”

We are always open to everything and attached to nothing. Our minds are like parachutes working best when open and we never assume we know the path for certain as we are always open to new ways up the rock; new ideas and new strategies to success and inner peace. We always know that success and prosperity is easy as long as we keep our minds open to the path. When new opportunities present themselves, we are all quick to recognize them and quick to respond in order to allow expansion to occur. We understand that our clarity of our goals and desired outcomes keeps us open to anything the universe may send our way and we see it immediately and are grateful for it even if it shows up differently than we had anticipated. We declare to the universe in our clarity of purpose, “this or more.” We surrender daily as we watch the hand of God unfold in our lives and business and we embrace the synergy of openness and clarity as these two somewhat opposing concepts dance in perfect harmony and step. **Be OPEN!!**

Be “WILLING”

We are willing to let go and let God’s hand work in every facet of this business. We are willing to observe, absorb and then release and let go of everything that comes because this process of surrendering helps us to understand how easily everything we desire can flow to us. This concept of surrender eliminates us from blocking the flow and prevents us from any fear associated with the rivers of milk and honey running dry. Everything we do will benefit humanity as a whole much more than our own self interests. We realize that if it fills our cup alone then we may be missing out on the higher purpose which is to serve. We desire nothing more than to feel the gifts of God; to fill our hearts and not our minds alone with Gods bountiful blessings. We release and surrender the goal to God and we step out of the way and allow it to flow to us naturally. We set the ego aside and allow God to give us all that already belongs to us. **Be WILLING!!**

Be “HAPPY”

Perfect joy bridges heaven and earth. When we are truly happy and joyous, we are a living testimony to the world of the one thing that can fulfill us most and that is happiness. When we give to others thru service, our self-worth is expanded in ways the mind cannot comprehend and the best gift we can give is joy but first we must be joy because we cannot give away something we do not have. **Be HAPPY!!**

Be “FOCUSED”

We must stay focused on what’s behind the goal more than the goal itself. We must check-in with why we are seeking whatever it is that is the goal. We must ask ourselves what is the feeling that is behind each goal, and what it is inspiring us to create. We must always seek to fulfill that which lies deep within our hearts. Our minds do not always know what’s best for us but our hearts do. Instead of focus being fixed and rigid, our focus is fluid and flowing thus minimizing our chances to attracting something that does not serve our higher good. A gentler and allowing focus guides our path. **Be FOCUSED!!**

Be “EXPECTANT”

We always expect the BEST! Energy always flows in the direction of our thoughts. Like water must always seek the deepest point, we must always go deep within ourselves for the answers. If we imagine that love is water and we direct love to infiltrate whatever it is we are paying attention to then love will penetrate and the results we can expect to be that of the highest good. This, Jesus said was” above all else”. God always gives us what we ask for, although sometimes in a different form than we expected so why not stop asking for what it is that we don’t want and start asking for what we do want and expect that it will show up. **Be EXPECTANT!!**

Be “ENERGETIC”

The higher the energy the better the response. We must always ask for what it is that our soul wants. Sometimes our minds lead us to believe that we want something and then when we get it, we are disappointed. But when our soul tells us a desire, the result is always fulfilling and lasting. The higher energy source comes from what is sometimes called “the fire in our belly” or “the fire from within”. To get tuned into these innermost desires we must drop 12 inches from our minds to our hearts. This endless energy source that inspires all that is and all that shall be is source. It is God. We operate from this enthusiasm, we inspire others to be passionate and energetic and in the process they go out and create something for themselves, something that inspires their lives and the cycle continues. Our hearts are the best barometer of what heaven is choosing to add to our lives and being energetic is the unfolding of God in form. **Be ENERGETIC!!**

Be “POSITIVE”

Every thought or goal has a sponsoring thought. We will get exactly what we focus on and this is absolute. However, to unearth each and every thought to its source is madness. All we must do is simply look at each thought that is ineffective and bless it and send it on its way. Then replace it with a positive thought. We must surround ourselves with positive things, triggers per say that stimulate good thinking. Elimination of things such as media, that constantly attempts to get us to buy into fear, helps clear the mind of clutter and then make space for positive thoughts. Our mind is the most fertile garden in the universe and will grow whatever we plant. Our results or our life is the yield. If we want more positive yield or succulent fruits and vegetables sweet from the vine, we must keep the garden weed free and cast out positive thoughts and we will get positive in return. **Be POSITIVE!**

Be “INTEGRITY”

Being true begins with us and the only person that can give the gift of truth to us is ourselves. It was once said that “that which is true is that which does not change”. Truth is whole and pure and constant. Truth does not falter or waiver but it instead holds the line like true north. It can be relied upon and it will endure all. It is lasting. We all have truth because at our core, we are truth because we are all offsprings of the same father, God. This business will last and it will endure all that comes our way as long as we keep truth as the foundation. It will grow and prosper as long as truth prevails. Our name, Integrity is not just some buzz word; it is who we are. If what we do

in the eyes of others is in integrity and then we are not truthful when we are alone then we have misunderstood the whole basis of this inspired business enterprise. We will embrace Integrity and it will touch every facet of our business and life and the results will last. **Be INTEGRITY!!**

Be “GRATEFUL”

Gratitude is perhaps the most important key to attraction in the universe and the universe bows to a heart filled with divine appreciation. When we give a gift to someone or we offer a helping hand and the receiver is grateful, it makes us want to give even more. The universe is no different. We must be grateful for the gifts God gives us no matter their size because to God, they are all the same because they originate from the same heart. Our business is built upon “gratitude in servitude”. May we acknowledge the gifts that God gives us. May we be grateful for the successes and the failures and always learn from our mistakes so that we can move forward and avoid making them over again all because we are grateful in a way that completely transcends logic. Thank You! Thank You! Thank You! **Be GRATEFUL!!**

Thank you to James F. Twyman and “The Moses Code” for inspiring these sound principles and this business venture. I am that, I am
